ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: FURNITURE HINGE WITH DAMPING DEVICE

(57) Abstract: Furniture hinge with damping and/or braking device in alternative to those already existing and capable of guaran-
teeing an improved efficiency during the closing and/or opening operation of doors, or other furniture parts, without any variations
to the overall dimensions of standard hinges. The improved efficiency of the hinge is obtained by increasing the friction surfaces
with a viscous medium present in suitable areas of the hinge and/or by allowing regulation of the trend of the angular velocities of
one or more circular shaped elements, for example a disc, which act as braking elements in contact with the viscous medium.
